Subject: Need to clean Manavta Nagar.

Sir,

Through your elite newspaper I would like to draw attention of local authorities of Manavta Nagar towards the unhygienic conditions in Manavta Nagar.

The roads of the locality are filled with polythene bags and dirt. As you know that it is the rainy season these bags choke up the drainage which worsens the condition. There are germs and insects breeding all through our locality and this is a cause of illness among the residents specially the children.

Hence, through this letter I would request the concerned authorities to get the locality cleaned as soon as possible and also arrange for pest control.

Yours truly
Prakash Dongre.
