

Your friend wastes a lot of time on the internet visiting sites that are related to horoscopes and numerology. Write an e-mail advising him not to do so.

Subject Time is precious

Vinay,

Now that we are in the 12th standard, we should be devoting more time to studies rather than wasting our time on internet. You informed me that you were doing research work on horoscope, sun signs and numerology. As a well-wisher and good friend, I want to advise you to become serious in studies as our time is very precious. Hard work done now will push us towards a good future. It is very difficult to get admission in good colleges these days. So friend, devote your precious time to studies, which will also pay you in future.

I hope you will take my advice in good spirit and start serious study as soon as possible.

Good Luck!

Your friend

Vaibhav
